Based on this information and pursuant to Ohio Administrative Code (OAC) Rule 3745-89-02, the analytical results of PFAS analysis performed by your laboratory on drinking water samples are acceptable to the Ohio EPA for compliance monitoring purposes. This acceptance is effective for PFAS (EPA 537.1 and EPA 533) and will expire on the expiration date given on the laboratory certificate, **February 7, 2025**.

Your laboratory is required to provide this office with copies of any letters or reports, as they become available, which relate to your acceptance status for PFAS analysis as determined by the Oregon Environmental Laboratory Accreditation Program.

Your laboratory must maintain satisfactory performance for PFAS analysis, including the reporting requirements as specified in OAC Rule 3745-89-08.
